

AMENDMENTS TO THE DRAWINGS

Applicants appreciate the Examiner's approval of the previous changes made to Figure 1. By way of this amendment, Figure 1 is also amended to correct an inadvertent double usage of the reference numeral "20." The lower "20" was supposed to be a "22" for the o-ring. *See* p. 15, lines 20-30. In addition, the lead line for reference numeral "23" has been redirected to the o-ring seal to which it refers. *See id.* These inadvertent errors have been corrected by way of the changes made herein to Figure 1.

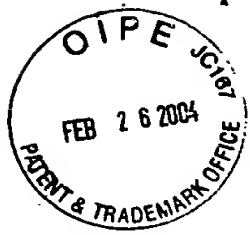

Fig.1.
